If you wish to have a donation receipt, please contact Sabine Hug via e-mail
(sabine@animal-help-espania.de).

Your personal data is only used for internal book keeping and will not be disclosed to any third party.

GUARDIANS

In some cases, dogs and cats are chronically sick or have a disability, sometimes a very rough past or they are simply too old to be re-homed. We put these little souls into long-term foster. In order to provide for them, we are grateful for any financial contribution. Also the street cats are grateful for any help maintaining their feeding stations which guarantee that cat colonies can live there free, but still protected. With your contribution, you are supporting animals which are very hard to re-home.

**Do you want to be a guardian for such an animal?
Please do not hesitate to contact us or visit our web site

ABOUT US
The animal charity Animal-Help-Espania e.V. was founded by Sonja Limmer and experienced animal welfare activists on April 8th, 2006. The result is a successful team with a common objective: helping with a full heart, where others look away – you can help as well!

Marion Boegl, 1. Chairperson

Sabine Hug, 2. Chairperson

- OUR MAIN WORK**
- Neutering campaigns of feral street cats.
 - Existing cat colonies are neutered, fed, treated with medication if need be and supervised.
 - Abandoned cats and dogs in Spain, rescued from the streets, out of garbage pits or surrendered by their owners, are cared for, fostered and re-homed.
 - Caring for, neutering and re-homing cats and dogs from Spanish animal pounds; mainly animals that would have no chance of being rehomed or surviving.

SEEKING HELPING HANDS!
Both in Spain and in Germany, our active members invest a lot of spare time in our work – they are all volunteers. It is a wonderful feeling to contribute your time to a meaningful and successful activity!
Everybody has talents which are needed in our charity; between planning, organizing and carrying out tasks, there is enough space – for your participation. Treat yourself to the good feeling of doing something very precious. You will meet new friends and the animals will thank you forever.

A simple example: With the help of energetic and courageous hands, 3,900 cats were neutered in the last couple of years. Considering a cat can have two litters with up to four kittens (usually there is even more), we were able to prevent another 16,000 cats in distress per year.
Would you also like to take the initiative? Please contact us. We are looking forward to meeting you. Please visit our web site and check what kind of assistance we are seeking most urgently.

WE SUPPORT LOCAL ANIMAL CHARITIES
We support the pets pound Asoka el Grande in Alicante and other shelters when it comes to re-homing pets, we help with donations and collections and actively participate in animal welfare through mutual ventures.
We support feeding stations in and around Calpe. Our Lore and Rosemarie are the the guardian angels of the street cats and look after the many feeding stations on a regular basis. Cats and tom-cats are trapped, neutered and released, and are looked after when they sick, if worse comes to worst, they humanely euthanised.
Thanks to years of successful neutering, small cat colonies have formed and pro-creation has been profoundly reduced. Moreover, Lore and Rosemarie take in foster animals and care fort hem until they are ready for re-homing. Neutering campaigns are organised by Sonja who also transports animals to Germany and is a precious advisor for any questions arising.
Moreover, we support a number of puppy- and dog shelters saving the most misfortunate animals taken out of Spanish kill shelters. We take in as many puppies and dogs as possible, so these shelters can rescue more animals from the kill shelters.

OUR MOTTO: WAKE UP AND UNDERSTAND
Only neutering changes the situation for the animals and we can see how successfully that has turned out:

- In the last couple of years, the population in cat colonies which are fed at the feeding stations, has not risen.
- Spanish women ask us for cat food as they want to look after street cats.
- More and more Spanish people understand how important neutering is and they even bring their own animals to us, in order to have them neutered.

We see that things are turning for the better. This is a massive motivation and we continue on our path – helping innocent animals that need our care. People like Lore and Rosemarie are the pillars of our work; they commit their lives to helping and loving animals, they are role models and they wake people up.

- A BIT OF STATISTICS**
- More than 10 million visitors on our web site www.animal-help-espania.de (since 2005)
 - 250 members
 - More than 3,700 dogs and cats re-homed
 - More than 3,900 neutered street cats in and around Calpe
 - More than 20 life-long foster animals who are being cared for at Animal-Help-Espania foster homes.
